MSB-BP MECHANICAL SET BRIDGE PLUG

Model MSB-BP Mechanical Bridge Plugs are used to isolate zones for temporary or permanent abandonment. These drillable bridge plugs set securely in any hardness casing. A ratchet lock ring stores the setting force in the bridge plug. The one piece packing element and metal back up rings combine for a superior seal. The case hardened, one piece slips virtually eliminate premature setting, yet can be easily drilled out. They are available for 4-1/2" through 16" casings.

FEATURES

Sets securely in any hardness casing, including premium grades.

Ratchet lock rings secure dynamic setting force.

One piece packing element and rocker action metal back up rings combine for a superior seal.

Compact, easy running.

Pressure balanced sleeve valve is opened and closed by tubing manipulation from the surface for better control.

Set with Model MST-BP Mechanical Setting Tool.

These bridge plugs can be set on any standard baker style mechanical setting tool.
