MST-BP MECHANICAL SETTING TOOL

Model MST-BP Mechanical Setting Tools are used to mechanically set MSB-BP Bridge Plugs. It is designed to contain the upper slips of Bridge Plug in a safe retracted position while running to setting depth. The upper slips are released by right hand rotation and slacking off on the work string.

FEATURES

Specially designed Bow Spring provides positive control and allows one size Mechanical Setting Tools to cover a large range of casing weight.

Locked with Bridge Plug

The Upper slips are held in a safe retracted position while running.

Can quickly be configured to set MSB-CR Cement Retainers or MSB-BP Bridge Plug.

One company at the center of the energy revolution is uniquely equipped with the know-how and ingenuity to make possibilities happen—SERVAgroup.com
