## TAC-B TUBING ANCHOR CATCHER

TAC-B Tubing Anchor Catcher performs two important functions:

1) anchors the tubing string, and  
2) catches the tubing if it should part. Unlike most anchor catchers, which are set as tubing anchors and rely upon movement of the parted tubing string to set them as catchers, the TAC-B Tubing Anchor Catcher is simultaneously set in anchoring and catching positions at all times.

### FEATURES

- ▶ TAC-B catches tubing without permitting any movement since the tool is set in only one position for both anchoring and catching.
- ▶ Positive catching regardless of Well conditions.
- ▶ Slips held securely in place.
- ▶ Dependable drag springs.  
Simple operation and positive release

One company at the center of the energy revolution is uniquely equipped with the know-how and ingenuity to make possibilities happen—[SERVAgroup.com](http://SERVAgroup.com)
